

ART TREK

Hockney Hills Pen and Zen

Materials:

- ¼ piece of copy paper or drawing paper
- Pencil
- Black sharpie, dark crayon or dark pen
- Colored sharpie or marker
- ¼ sheet colored construction paper (optional)
- Glue stick (optional)

You may make this project with the paper turned either vertical or horizontal.

1. Using a pencil, lightly draw five or six hills overlapping each other and leaving room at the top to add a tree. Now add a simple tree on top of one of the highest hills.
2. Now with the black sharpie, dark crayon, or dark pen, go over pencil work and fill in each hill with a different zentangle™ design – repeated pattern in a defined space. Also create a pattern on the tree trunk.
3. With the colored sharpie or marker, color in only the leaves of the tree.
4. Glue the finished art piece onto the construction paper.

Vocabulary: repetition, design, balance, overlap, perspective, composition
